

Code Name: Piranha	File Name: Mitchell, Lucas Remington
Ambush Specialist	Primary Specialty: Survival
	Secondary Specialty: Ambush Tactics
	Birthplace: Edmond, Oklahoma, USA
	Designation: Field Operator
	Lucas Mitchell was the kid who had everything going for him. A promising high school quarterback from Oklahoma with good grades and a bright future ahead of him, he lost everything in an instant when a drunken night of revelry with his friends resulted in two of them ending up dead following a street fight with a group of students from a rival school. Lucas killed three people that night. While his life did change completely that night, it was not in the way that he expected. Instead of going to prison, Lucas found himself drugged and recruited into a special reclamation program in which he was given advanced tactical training to become a deadly operative. He took to his new role with aplomb, becoming a master of wilderness survival and ambush tactics. Now routinely deployed into the field as a skilled operator by SD6L, Lucas has nearly forgotten the old life he once had, living instead for the thrill of the deadly hunt.
